

**Berenson™**

# NEW

## Decorative Hardware Collection Brookridge

*Imagine the artist walking through the beauty of nature to find their inspiration. Shadow and light, color and form all dance across their view.*

Sometimes, those moments are transformed into artful design elements, bringing warmth, elegance, and personality to life.

The **Brookridge Collection** by Berenson walks along the babbling brook and rests at the straight path to discover fresh, crisp air before a slight turn along the ridge. Finally, it slows down at the soft peak in the hills.

This **transitional** decorative hardware collection blends **understated shapes** for the perfect accessory to any kitchen or bath cabinet. The **Brookridge Collection** brings elusive yet, definable form to any interior design.

### Brookridge Available Finishes:
